TRUSTED POTABLE WATER STORAGE SOLUTIONS

Superior Tank Potable Water Bolted Steel Storage Tanks provide safe, reliable, and cost-effective storage solutions for municipal, industrial, and private water systems. With over 40 years of proven expertise, we combine durable powder-coated steel panels, precision engineering, and innovative design to create tanks that are easy to install, simple to maintain, and built for decades of dependable service. Each tank is specifically engineered to protect water quality, ensuring clean and secure storage for drinking water and other potable applications.

Engineered to meet or exceed stringent health, environmental, and regulatory standards, our potable water tanks deliver exceptional performance and long-term value. Backed by multiple certifications and a reputation for uncompromising quality, Superior Tank is a trusted partner for potable water storage solutions worldwide — helping communities and organizations store their most vital resource with confidence and peace of mind.
